FINE ART PRINTS
BY INTERNATIONALLY
RENOWNED ARTIST
DIANA NICOSIA

* a border is provided on each print to allow for optimal framing

DIANA NICOSIA

Internationally acclaimed artist Diana Nicosia presents her newest fine art limited edition prints, "The Legends of Baseball", a series of New York Yankee Legends in action. This is Ms. Nicosia's first limited edition series covering a major professional sport. Her original fine art is owned by serious art collectors, and is exhibited by fine art houses around the world, including permanent museum collections.

A graduate of Wheaton College, Ms. Nicosia studied at Mass College of Art and attended classes in an Atelier founded by Ives Gamell. Professional honors include an invitation by the Trustees of Versailles to paint at Claude Monet's Giverny. The government of the State of Kuwait invited her to paint and exhibit her series called "Tides of War-The Oil Fires of Kuwait". More recently, Ms. Nicosia received a special invitation from the Vatican to paint in the private Papal Gardens. In April, 2000, Ms. Nicosia became the first artist to receive the Terzo Mellenio award from the Italian Consulate in recognition of her "Vatican Images" exhibition. Her Italian landscapes are legendary. Diana Nicosia's color saturated paintings are works of considerable emotional power accurately reflecting the contrasts between the spiritual beauty and violent history of the Maremma in Tuscany where she lived and painted for twenty years.

A past Trustee of the Foundation of Ethnobiology at Oxford College, England, Ms. Nicosia was invited by Brazilian Ambassador Paulo Tarso Flecha de Lima and the Smithsonian Institution to paint the "passionate drama of the evolving status of the jungle".

Throughout Diana's career she has always donated a portion of the revenue from the sale of her works to a variety of charitable causes. She is pleased to announce that a percentage of the Legends of Baseball proceeds to benefit children's charities worldwide.
